The story of the Lord of Miracles (Spanish Edition) Bertha Fernandini León

It is very important to remember that just like we cannot control earthquakes, there are some problems that, at times, seem to be very difficult to overcome or work out. Precisely, in those particular moments is when we have to think that there is someone greater than us that can solve any problem, even the ones that seem impossible, and that someone is God.

Having faith in him helps us keep our hopes up, even amidst difficult times. There is always a light in the darkness, and that light is the faith that leads us to God.

that's right,

kids; faith heals, helps, accompanies and makes people happy. Now you know why that same faith moves so many people every year, people who make time to venerate the image of the Christ of Pachacamilla. Now you have something to tell your children and your children's children to continue this chain that began many years ago.
